## Negro Shot.

Jesse Eaton shot a negro named Nels Daniel at the ball ground Sunday evening, inflicting a flesh wound in the hip. Eaton was accosted on the street Saturday night by the negro and at the point of a pistol began to bullying Eaton who was greatly intimidated by the negro. When Eaton saw the fiend Sunday evening, he asked him if he was the bully that had so badly treated him the night before. The negro said he was and threw his hand to his hip pocket as if he was ready to resent any remonstrance or rebuke Eaton might justly make for his conduct the night before. Eaton was too quick for him, however and drew his weapon first and shot the negro with above mentioned results.

Eaton was cleared of the charge on examining trial Tuesday. The negro will answer to the charge of firing a gun on the streets and using boisterous and abusive language.

## Below Kentucky's Level.

At Lorain, Ohio a few days ago, says the Georgetown Times, the sister of a priest was brutally murdered by an unknown person. At Medford, Mass., about the same time a prominent young lady was shot down in cold blood at the home of her father, and nobody knows who did it. These facts in no way excuse the assassinations at Jackson, but as long as virtuous editors in the North

are throwing rocks at Kentucky on that account, it is well enough to keep before the public the fact that all that is bad is not confined to this State. The assassination of women is one of the crimes that is never laid at the door of any Kentuckian.—Georgetown Times.

## Estill Republicans Can't Agree.

The Republicans of Estill county met in convention at Irvine Monday, May 18, to nominate a candidate for Circuit Clerk. The convention was, or now is, composed of delegates from each precinct in the county, twenty in all. A dead lock resulted in the selection of a chairman, the contending parties being Judge W. H. Lilly and present county Judge O. K. Noland. From last reports no agreement could be reached by the body as to who should be the chairman and we understand that should the convention get down to work there will also be a dead lock in the vote which will be equally as hard to break. It is stated that Witt, one of the two leading candidates offers to withdraw if Wallace his equal opponent will do likewise. This Wallace will not consent to do. Though the convention met several days ago, the end seems to be no nearer at hand than at the beginning, according to last accounts. The County Committee has been called on for relief as a last resort.

## A Bad Plight.

Kentuckians who have emigrated to Oklahoma are being washed away, and their houses are being flooded and floated down the streams; in Missouri and Kansas they are being blown away together with their houses and household goods. We guess these people will learn after a while that all is not gold that glitters, and that these states have drawbacks as well as the hilly portions of Kentucky which is, by the way, the best all around state in the Union. In our judgment, even Powell and Estill counties are far above the average Western county.

## Soldiers at Jackson.

A company of soldiers went up to Jackson Sunday to protect the Circuit Court which convened in special term Monday. It is not thought that they will be needed, but they were asked for to be on hand in case of any emergency. Curt Jett, the alleged assassin of J. B. Margum, has been indicted of the charge together with Tom White. Jett was sent to Jackson Tuesday evening to stand trial of the charge. White was arrested in the county fifteen miles from Jackson and will also be tried at this term of court if possible.

## Saved a Train.

Elder Albert Easter found a large bar of iron on one of the rails a short distance beyond the Waltersville bridge Sunday afternoon, and a short distance further he found a rock on the same side of the track. This was but a short time before the arrival of the special train carrying the soldiers to Jackson, and through his efforts in removing them, the train was saved from a wreck.

## Very Rigid Examinations.

The May examination for teacher's certificates was exceptionally rigid. It is reported that by some means the original questions were obtained and printed by some unknown parties and were freely disposed of over parts of the State, and when the State board of examiners learned of the fact they issued a new lot of questions and questions that were far more difficult to answer than the original ones.

## Backward Powell.

Powell county has not contributed a penny to the World's Fair fund now being raised by popular subscription. If the \$100,000 had been appropriated by the Legislature, Powell's share of this amount would have been \$120. We should raise at least this amount, and if we do not, we will be rightly branded a sluggish and near sighted people. Let's redeem ourselves.

## Dry Weather.

The dry weather continues without interruption. The condition is becoming serious with the farmers, as they can not break their ground for planting, and but very few are through planting. Corn that is planted can't come up till it rains. Grass is very short and burned up in places. The roads are very dusty.

Teddy at Last Subdues Them.  
Report comes from Washington

of the decree of party bosses that Kentucky Republicans must endorse Roosevelt for President. No resentment of the intimidation will be made in the private ranks.

## Virgil Smith Appointed.

Gov. Beckham has appointed V. P. Smith, of Somerset, as special Judge to try the case of Sarah Boreing vs. her divorced husband Congressman Boreing for alimony. Smith was formerly a prominent attorney of Irvine.

## Bright Teachers.

In the examination of colored teachers the past week, in answer to a question to name the Senators from Kentucky, one applicant replied, "Mark Hanna and Breck Hill."—Winchester Democrat.

## Another Fake.

The report published in the daily papers last week that an unknown man had tried to hire a cook at Winchester who served Jett's meals to put poison in his coffee, is branded as a lie.

At Louisville, the second trial of Wm. T. Pryse, a medical student of Beattyville, who shot and killed Antonio Gegg, a brakeman, began yesterday.

A dozen or more lives were lost with great destruction of property in a small Iowa district Tuesday. Kentuckians can't beat Kentucky.

## Irvine Items.

Wm. Snowden left yesterday morning for Jndy, Montgomery county, where he was called to the bedside of his niece, Mrs. Lee Gatt, who has been at the point of death for several weeks.

Eld. T. Q. Martin, of Winchester, will preach at the Christian Church on Station camp the fourth Sunday in each month. Owing to the condition of the roads he has not been here since March.

A movement is now on foot to reorganize the Irvine Brass Band. There are several of the old members who, together with the musical talent of a number of our town boys, could, in a short time, revive sweet memories of long ago.

It is reported that Prof. Throop, of Mt. Sterling, well-known throughout this county as one of the most efficient teachers in the State, is shortly to undergo an operation which is likely to prove fatal. He has written to the Methodist church here for his letter, that he may be in immediate connection with the church should the worst come. His many friends and admirers here will await the result of the operation with the greatest of anxiety.

Clabe Adams and Albert Thomas, cousins, engaged in a shooting affray yesterday as the result of an old grudge. The men met in the road, near Panola, and Thomas ordered Adams to get out of the road. Upon Adams' refusal Thomas drew his pistol. Adams, however, was too quick for him and got in the first shot. Several shots were exchanged but neither were struck. Adams came to Irvine on the noon train and gave himself over to the officers after having a warrant issued for Thomas.

## The Balance Wheel

Look inside your watch a moment. The balance wheel is making 18,000 vibrations an hour, if it's in good condition. If the movement is sluggish, there's something wrong. It will move 3,558 miles in a year, and requires less than one-tenth of a drop of oil to make it run. But it needs that little bit of oil. The least degree of friction on the bearings alters the motion. Don't take chances. Let me clean and oil and put your watch in order for a year. It will pay and satisfy you.

### SPOUT SPRING.

Many teamsters are putting in full time now since the roads have become passable.

Reuben Tipton has been visiting relatives in Clark county a few days this week.

Rev. V. B. Daughette, of Allensville, preached at the Methodist church Sunday.

Feed in this section, like in adjoining neighborhoods, is becoming scarce and high.

Miss Dollie Christopher is visiting her sister, Mrs. Edith Lowry, at Pilot View, Clark county this week.

Mrs. Gus Webber, a sister to Messrs. Wm. and Ben Stone, is lying at the point of death and her departure is hourly expected.

Lane Harris, son of Robert Harris, deceased, died in this county near Iron Mound last Thursday of consumption, aged 20 years. Funeral services by Eld. Wm. Rapard; burial in the family graveyard. The deceased was a well respected young man in his community.

Mrs. Mollie Tipton was taken suddenly ill with heart failure last Saturday at Winchester where she and her mother, Mrs. Elizabeth Burgher, were visiting relatives. For a time, it was thought she could not live. She recovered sufficiently to be brought home Tuesday, where she is slowly improving.

### The Troublesome Negro.

Through the boisterous and noisy conduct of one of the bad colored bloods Saturday night, it is remindful of our former predictions. The equipollent aspirations of the negro must be curbed or the white population must be imposed upon. The negro is an inferior and an incapable being, and this fact has been demonstrated to all thinking, considerate and unprejudiced people, and to keep him so is a question of vital importance. To think that there are men of our own race so biased to party relations that they daily encourage and agitate this subordinate creature to supremacy over the opposing party, is astounding. But such is the case in our country today, beginning at the head of the government and coming on down to modern Clay City. We believe in the negroes' advancement along well-guarded lines, but the greatest precaution must be taken not to give him a premature exaltation, or we might get him above the plane our Creator intended for him to occupy.

### There's a Difference.

In the assassination of Attorney J. B. Marcum, Republican, at Jackson in the courthouse of a county under Democratic rule, and through, it is alleged, political effect, the Democratic officials are using every effort to bring the guilty to justice, and in a few days after the awful deed was committed, the alleged parties are indicted for the crime and will be tried soon as possible.

More than three years ago Gabel a Democrat, was assassinated on the capital grounds under Republican rule, and from the executive building, occupied only by Republican officials, What effort did these officials make to apprehend or prosecute the guilty? What encouragement has many members of this party given to the prosecution of the accused?

### Not Quite So Hasty.

The races for the various county offices in the Democratic primary, is beginning to command some attention, and many names in this connection are being mentioned at this early day. We favor ample time being allowed for candidates to make a thorough canvass of the county, but we think it is yet too soon to inaugurate a campaign, as this election is more than two years off. This is too long a time for the candidates to have to supply the floaters with whiskey and booze.

In the removal of several members of the Democratic committees in Louisville, Lexington, and other cities in the State, Chairman Allie Young of the State Central Committee, is receiving some bitter notoriety. Whether he is justifiable in his action or not, we cannot positively state, but from the tremendous howl going up from many portions of the State, we are inclined to think he is usurping a little too much power in this connection. Let harmony prevail in the ranks.

We believe in free speech and in the freedom of the press, but we don't believe in free lying and wilful exaggeration such as is being practiced on Eastern Kentucky in the moulding of sensational narratives. A paper should be compelled to have some regard for truth, especially so when it is defaming the name of the State. In this particular nothing but the truth should be published, that is far too bad.

The Lexington Morning Herald which professes to give all the Breathitt news might do well to go to Jackson and get rid of the indictment now lodged in the Circuit Court there which charges it with malicious lying in its reports on the affairs in the county before it makes such great pretensions of giving correct reports.

The local ball team was very considerate during the game Sunday afternoon to move from the new and commodious inclosed grounds to the old ground on account of the disturbance it was creating to a sick lady, who was just across the street.

We suggest as Teddy's running mate next year, his friend who dined with him as a special guest last fall, and which has since created so much comment with the public and gratification to the chief executive.

President Roosevelt never loses an opportunity to urge and encourage the universal raising of large families. His loyal and dusky constituency in the South is certainly heeding his advice.

The Court of Appeals has decided that Judge Cantrell must vacate the bench in the coming trial of Caleb Powers, and Judge J. E. Robbins, of Mayfield, has been appointed to try the case.

### Deafness Cannot be Cured.

by local applications as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness (anciently catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

For nearly four years I suffered from ovarian troubles. The doctor insisted on an operation as the only way to get well. I, however, strongly objected to an operation. My husband felt disheartened as well as I, for home with a sick woman is a disconsolate place at best. A friendly druggist advised him to get a bottle of Wine of Cardui for me to try, and he did so. I began to improve in a few days and my recovery was very rapid. Within eighteen weeks I was another being.

"I feel it my duty to let you know that your medicines have cured my little girl of nine, of spasms. She commenced having them at the age of three. Our family doctor said she would outgrow them but she did not. We took her to another physician who said her trouble was epileptic fits in a mild form. He did her no good either. She was so nervous she could hardly walk. As I had already used Dr. Miles' Nervine and found it a good remedy for myself I commenced giving it to my child. I gave her in all ten bottles of the Nervine and one of the Blood Purifier. That was over two years ago and she has not had an attack since we commenced the treatment. She is no longer troubled with nervousness and we consider her permanently cured. I enclose her picture. My mother-in-law lost her reason and was insane for three months from the effects of LaGrippe. Six bottles of Dr. Miles' Nervine cured her. My sister has also taken it for sick headache with good results. We all thank you very much for your good medicines and kind advice. I don't think there is any other medicine half so good. I send my daughter's photograph so that you may see what a sweet little girl lives out in Arkansas."—MRS. HANNAH BARKETT, Springdale, Ark.

Several valuable and appreciated communications must lie over on account of space this week. If matter continues to increase, we may some time in the future have to enlarge a little.

Complaint comes from the post-office at Genet that the Times of last week did not reach that place. This was no fault of the publisher as they were dispatched from this office on due time Thursday.

### The Best Liniment.

I have derived great benefit from the use of Chamberlain's Pain Balm for rheumatism and lumbago," says Mrs. Anna Hagelgaus, of Tuckahoe, N. J. "My husband used it for a sprained back and was also quickly relieved. In fact it is the best family liniment I have ever used. I would not think of being without it. I have recommended it to many and they always speak very highly of it and declare its merits are wonderful." For sale by all dealers in patent medicine.

Mr. Samuel Ginter, a well-known citizen of Union Hall, was down Monday on business. Mr. Ginter, who is one of the very best Democrats in the state, is pleased with the political outlook in Estill, and says he thinks the prospects good for the election of a Democrat to succeed J. A. Wallace the present Circuit Clerk. Here's hoping he is correct in his views, and we ourselves believe such a thing possible. All the party of superior principles needs in Estill is more confidence.

### GREATLY ALARMED.

By a Persistent Cough, but Permanently Cured by Chamberlain's Cough Remedy.

Mr. H. P. Burbage, a student at law, in Greenville, S. C., had been troubled for four or five years with a continuous cough which he says, "greatly alarmed me, causing me to fear that I was in the first stage of consumption." Mr. Burbage, having seen Chamberlain's Cough Remedy advertised concluded to try it. Now read what he says of it: "I soon felt a remarkable change and after using two bottles of twenty-five cent size, was permanently cured." Sold by all dealers in patent medicine.

### Too Great a Risk.

In almost every neighborhood some one has died from an attack of colic or cholera morbus, often before medicine could be procured or a physician summoned. A reliable remedy for these diseases should be kept at hand. The risk is too great for anyone to take. Chamberlain's Colic, Cholera and Diarrhoea Remedy has undoubtedly saved the lives of more people and relieved more pain and suffering than any other medicine in use. It can always be depended upon. For sale by all dealers in patent medicine.

Frost which was scheduled to appear on the 27th did not show up yesterday morning, and those who say it always frosts the same day in May that it thunders in February, must now take a back seat as they say it sure thundered the 27th of February and have since expected the frost.

### A Farmer Straightened Out.

"A man living on a farm near here came in a short time ago completely doubled up with rheumatism. I handed him a bottle of Chamberlain's Pain Balm and told him to use it freely and if not satisfied after using it he need not pay a cent for it," says C. P. Rayder, of patters Mill, N. Y. "A few days later he walked into the store as straight as a string and handed me a dollar saying, 'give me another bottle of Chamberlain's Pain Balm. I want it in the house all the time for cured me.'" For sale by all dealers in patent medicine.
